

ELISSE'S RUNWAY WISH

ELISSE is in most regards a normal young teenager; she loves music, dancing, and hanging out with her friends as much as possible. Differentiating **ELISSE** from other girls, though, is the fact that she battles a rare and serious congenital heart condition that she must always be mindful of. However, her love of fashion sets her apart too. She is not merely an ace shopper, but a talented aspiring designer whose love of sewing runs in the family. When her wish grantors paid their first visit, she had her wish firmly in mind.

"I wish to be...a fashion designer!"
ELISSE prepared an array of intricate sketches for the Henderson School of Design to faithfully recreate. Her styles are playful, brightly colored and sporty-

-perfect clothes for her best friends to model on a real catwalk! **ELISSE** had complete creative control as the outfits were constructed, choosing each element down to the buttons. On the day of the fashion show, she and her friends were ready to strut their stuff. **ELISSE'S** unique designs had been beautifully brought to life, and the girls had perfected the supermodel pouts that they showed off to an audience of over 200. It was a wish even beyond the imagination of this very special girl, and inspired her to keep on dreaming.
